WALLACE

PICTURE LIGHTS REDEFINED

INTRODUCING THE WALLACE

The Wallace has been designed to be the most discreet, low glare picture light on the market. It offers you the highest quality light output to show your art at its best. Its slimline shape perfectly conceals the LED light source ensuring the light is glare free.

EVEN ILLUMINATION

The Wallace uses cutting-edge technology to provide an even distribution of light to precisely focus on your whole canvas. From top to bottom, the Wallace will discreetly yet perfectly illuminate your art.

EXCEPTIONAL COLOUR RENDITION

You can be sure that the true colours of your art will be seen with an exceptionally high CRI (Colour Rendition Index) of 97. This will ensure the colours shine through as if they are lit by daylight.

FINISHES

FLAWLESS FINISHES

The Wallace comes in black, antique brass and antique bronze as standard to suit both your art and interiors. We are able to offer other finishes upon request.

BLACK

ANTIQUE BRASS

ANTIQUE BRONZE

SIZES

ADAPTABLE SIZES

The Wallace Picture Light is available in 6 head sizes: 15, 30, 45, 60, 75 and 90. In addition four different arm lengths allow even greater flexibility to light different canvas sizes.

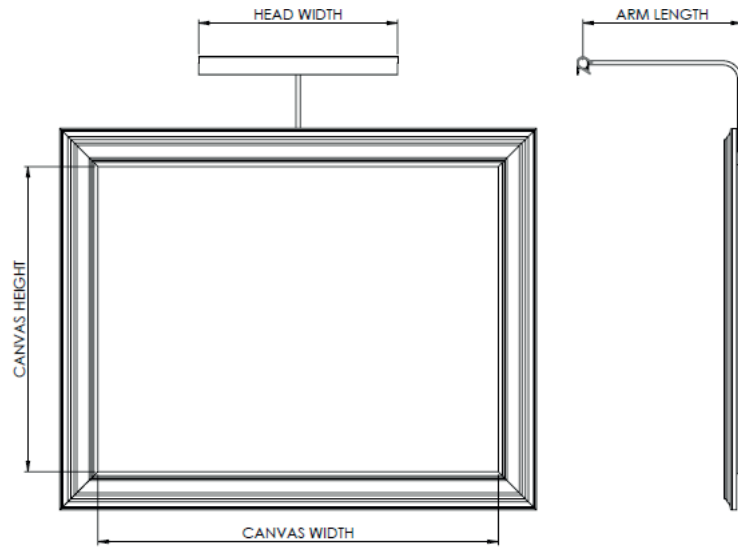

See details of how to work out which size you require to suit your art on the next page.

FLEXIBLE MOUNTING

The Wallace can be both wall or frame mounted to suit the installation. The luminaire's height can be adjusted and the head tilted to further fit the art.

HOW TO SPECIFY

1. Measure width and height of canvas.
2. Using the table opposite, find the required product code.
3. Select finish using codes listed overleaf.
4. Our dedicated sales team will advise the correct choice of driver for your requirements.

CANVAS HEIGHT (mm)	CANVAS WIDTH (mm)						ARM LENGTH
	Up to 380	380-620	620-860	860-1100	1100-1340	1340-1580	
Up to 380	WA1515XX1	WA3015XX1	WA4515XX1	WA6015XX1	WA7515XX1	WA9015XX1	150
